

Engineering Music

Madhumohan

Madhumohan, an electrical design engineer from Ontario trained in Carnatic vocal has launched his latest album Meri Chahat, that reinforces his image of a promising talent. The melodious tracks have a contemporary feel about them, the shayarees having been composed by some well-known lyricists of our city. Sadhana Sargam has sung two beautiful duets with Madhumohan and there is also a flute solo by the popular Ronu Majumdar.
